	Research methods (Paper 2)								
	Week 27	Week 28	Week 29	Week 30	Week 31	Week 32			
Half Term 5	Research methods (Paper 2)						Holiday		
	Research methods (Paper 2)								
	Week 33	Week 34	Week 35	Week 36	Week 37	Week 38	Week 39		
Half Term 6	Research methods (Paper 2)			Trial Examinations		Work Experience	Intro to Isuues and		
	Research methods (Paper 2)						Debates		

How does this year deliver your curriculum intent?

The Year 12 Psychology curriculum delivers the Social Sciences intent by engaging students with a wide range of topics that build scientific understanding of human behaviour while encouraging curiosity about the world around them. Through the study of Social Influence, Approaches, Memory, Biopsychology, and Issues and Debates, students explore key concepts such as conformity, obedience, nature vs nurture, and cognitive and biological explanations of behaviour. Research Methods are embedded throughout, allowing students to develop essential enquiry, analysis, and evaluation skills. By comparing perspectives and critiquing research, students challenge preconceptions, develop respectful and tolerant attitudes, and grow in confidence to express ideas, discuss societal issues, and consider their impact beyond the classroom.
