How does this year deliver your curriculum intent? What does the end of year assessment look like?

Students will continue to develop performance skills; voice & physicality, audience awareness, sustaining a role & begin to develop an appreciation of theatre styles, genres & practitioners. They will further develop their use of semiotics & subtext when working with script. The practice of critical self and peer reflection will be embedded through the learning experience. At the end of the year students will be assessed on their subsidiary & disciplinary knowledge. A practical & theoretical assessment will take place during lessons, which will focus on knowledge and understanding of units covered.
