

**THE HIGHEST STANDARDS**

Always set and deliver the highest standards: never settle for less.

**INVEST TO ACHIEVE**

Care about the now; create the very best for your future.

**EVERYONE IS VALUED**

We are unique individuals working together to be the best.

**NO EXCUSES**

Create solutions, not excuses.

**NEVER GIVE UP**

Resilience is essential; self-belief drives improvement.

**CULTIVATE YOUR CHARACTER**

Qualifications open doors; your character gets you through them.

## Geography Year 8 2023-2024

	Week 0	Week 1	Week 2	Week 3	Week 4	Week 5	Week 6	Week 7	
<b>Half Term 1</b>		Wasteful world: Are sustainable energy sources a reality?							Holiday
	Week 8	Week 9	Week 10	Week 11	Week 12	Week 13	Week 14	Week 15	Holiday
<b>Half Term 2</b>	Deadly geography: what are the impacts of earthquakes, volcanoes and tsunamis on the global population?								
	Week 16	Week 17	Week 18- LC1	Week 19	Week 20	Holiday			
<b>Half Term 3</b>	Wild water! How have fluvial processes shaped our planet?								
	Week 21	Week 22	Week 23	Week 24	Week 25	Week 26	Holiday

	Week 33	Week 34- LC2	Week 35	Week 36	Week 37	Week 38	Week 39		
<b>Half Term 6</b>									

How does this year deliver your curriculum intent?

The year eight curriculum is will take your geographical knowledge and skills to the next level! Through 16 challenging lessons in each module, your teacher will help you become a key stage three expert in a number of globally important issues. Initially, you will study energy security around the globe, and consider where the race for profit and security in energy supplies has created disasters in Chernobyl, the Gulf of Mexico, and Fukushima. You will also develop your knowledge of the macro-scale geographical processes that create earthquakes, volcanoes and tsunamis, amongst other engaging and challenging concepts.
