<p>How does this year deliver your curriculum intent?</p>	<p>This is the second year of A level study. Each lesson will be challenging and well-structured so that you can make progress towards an A* grade. Your teachers are highly experienced assessors of the A level and so you will receive focused guidance to ensure that you make excellent progress. The geographical content is wide ranging and you will be required, for example, to build your knowledge of the contrasting features of urbanisation in contrasting areas of economic development, conduct a personal high quality geographical investigation, and investigate the hugely important issue of global cycles of carbon.</p>
