

THE HIGHEST STANDARDS

Always set and deliver the highest standards: never settle for less.

INVEST TO ACHIEVE

Care about the now; create the very best for your future.

EVERYONE IS VALUED

We are unique individuals working together to be the best.

NO EXCUSES

Create solutions, not excuses.

NEVER GIVE UP

Resilience is essential; self-belief drives improvement.

CULTIVATE YOUR CHARACTER

Qualifications open doors; your character gets you through them.

Geography Year 8 2024-2025

	Week 0	Week 1	Week 2	Week 3	Week 4	Week 5	Week 6	Week 7	Week 8
Half Term 1		Wasteful World: Are sustainable energy sources a reality?							
Half Term 2	Week 9	Week 10	Week 11	Week 12	Week 13	Week 14	Week 15	Holiday	
	Deadly Geography: What are the impacts of volcanoes, earthquakes and tsunamis on global populations?								
Half Term 3	Week 16	Week 17	Week 18	Week 19	Week 20	Week 21	Holiday		
	Wild Water: How have fluvial processes shaped our planet?								
Half Term 4	Week 22	Week 23	Week 24	Week 25	Week 26	Holiday			
		Ecosystems on the Edge: Have humans pushed nature to the point of no return?							
Half Term 5	Week 27	Week 28	Week 29	Week 30	Week 31	Week 32	Holiday		
	Ecosystems on the Edge		Unfair Trade: Have global economic systems been successful at creating wealth for all?						
Half Term 6	Week 33	Week 34	Week 35	Week 36	Week 37	Week 38	Week 39		
	Unfair Trade			Decision Making Exercise					
How does this year deliver your curriculum intent?	The year eight curriculum will take your geographical knowledge and skills to the next level! Through challenging lessons in each module, your teacher will help you become a key stage three expert in a number of globally important issues. Initially, you will study energy security around the globe, and consider where the race for profit and security in energy supplies has created disasters in Chernobyl, the Gulf of Mexico, and Fukushima. You will also develop your knowledge of the macro-scale geographical processes that create earthquakes, volcanoes and tsunamis, amongst other engaging and challenging concepts. At the end of the year you will look at the development gap and how there is an upsetting divide on planet earth. We will finish off this year with a decision making exercise where you can put your leadership and problem solving skills to the test!
