How does this year deliver your curriculum intent?

This year introduces the BTEC Tech Sport course. It teaches and assesses component one and two and prepares students for the assessment of component three, which is completed in January Y11. The course allows students to deepen their theoretical understanding of how to determine their own and others' fitness levels and this enables students to develop their confidence, resilience and independence throughout each component. This year's course content equips students with lifelong skills that will lead to a healthy lifestyle that promotes mental and physical wellbeing and consequently promotes a love for physical activity and a desire to keep active in the future.
